

Northstar Field Travel Policy

Employee reimbursement and booking requirements

Authorization

Business travel requires manager approval before a reservation is purchased. Employees should book approved travel through the Compass portal whenever it is available.

Lodging

The standard lodging limit is USD 180 per night before taxes. A manager may approve a higher rate when no reasonable option is available near the work site.

Meals

Travelers may claim up to USD 65 per day for meals. Alcoholic beverages and personal entertainment are not reimbursable.

Receipts

An itemized receipt is required for every individual expense of USD 25 or more. A card statement alone is not considered an itemized receipt.

Submission

Expense reports should be submitted within ten calendar days after the traveler returns. The report must include the business purpose and the approved project code.
